4. References to Capital Requirements Regulation (CRR) 129(7)

Row

Row

The issuer believes that, at the time of its issuance and based on transparency data made publicly available by the issuer, these covered bonds would satisfy the eligibility criteria for Article 129(7) of the Capital Requirements Regulation (EU) 648/2012. It should be noted, however, whether or not exposures in the form of covered bonds are eligible to preferential treatment under Regulation (EU) 648/2012 is ultimately a matter to be determined by a relevant investor institution and its relevant supervisory authority and the issuer does not accept any responsibility for the issuer's compliance with the eligibility criteria for Article 129(7) of the Capital Requirements Regulation (EU) 648/2012.

C. Harmonised Transparency Template - Glossary

The definitions below reflect the national specificities

Field Number	1. Glossary - Standard Harmonised Items	[Insert Definition Below]
HG.1.1	OC Calculation: Actual	The amount by which nominal value of the cover pool exceeds the nominal outstanding amount of covered bonds. (Cover pool Assets - Outstanding Covered Bonds / Outstanding Covered Bonds)
HG.1.2	OC Calculation: Legal minimum	According to Swedish law the legal minimum OC is 2% .
HG.1.3	OC Calculation: Committed	ND2
HG.1.4	Interest Rate Types	Fixed or floating (with a fixed period of three months or shorter). For the assets, floating refers to loans with interest period less than 1 year
HG.1.5	Maturity Buckets of Cover assets [i.e. how is the contractual and/or expected maturity defined? What assumptions eg, in terms of prepayments? etc.]	Contractual maturity : Contractual repayments are distributed by buckets according to plan . If there is no amortization plan or no specified maturity date a 30 year maturity is applied.
HG.1.6	Maturity Buckets of Covered Bonds [i.e. how is the contractual and/or expected maturity defined? What maturity structure (hard bullet, soft bullet, conditional pass through)? Under what conditions/circumstances? Etc.]	Hard bullet is reported on initial maturity, soft bullet on extended maturity. The Swedish domestic covered bonds are only hard bullets at present.
HG.1.7	LTVs: Definition	Loans are distributed to LTV-buckets as described on the website of ASCB (Association of Swedish Covered Bond Issuers) : http://www.ascb.se/sites/default/files/LoanToValueForSwedishCoverPools_20100305_mark-1.doc
HG.1.8	LTVs: Calculation of property/shipping value	LTV is calculated using market values. For residential collateral, a loan may be included up to 75% of the market value, for agricultural collateral up to 70% and for office and commercial collateral up to 60% (max 10% of cover pool)
HG.1.9	LTVs: Applied property/shipping valuation techniques, including whether use of index, Automated Valuation Model (AVM) or on-site audits	
HG.1.10	LTVs: Frequency and time of last valuation	
HG.1.11	Explain how mortgage types are defined whether for residential housing, multi-family housing, commercial real estate, etc. Same for shipping where relevant	The cover pool may consist of certain mortgage credits, public credits and supplemental assets. Mortgage credits are defined as loans secured by (i) mortgages over real property intended for residential, agricultural, office or commercial purposes or site leasehold rights intended for residential, office or commercial purposes, (ii) pledges over tenant-owner rights , or (iii) comparable security interests over equivalent assets situated in other countries within the European Economic Area. Public credits are defined as certain loans to (or guaranteed by) inter alia the Swedish State, Swedish municipalities and comparable public bodies, the European Union, the European Atomic Energy Community, certain foreign states and central banks and certain foreign municipalities and comparable public bodies with powers of taxation. Supplemental assets consist primarily of government bonds and cash , although the Swedish Financial Supervisory Authority (SFSA) may also authorise the use of certain debt instruments issued by credit institutions and other bodies as supplemental assets. . According to the Swedish Covered bond Act (SFS 2003:1223) and FSA Regulations and Guidelines on Covered Bonds (FFFS 2013:1) a Swedish Covered Bond Issuer is allowed to have interest rate and currency risk as long as it fulfil the daily matching requirements and "ensure that the flow of payments regarding assets in the cover pool, derivative agreements and covered bonds are such that the institution is, at all times, able to fulfil its payment obligations towards the holders of covered bonds and counterparties in derivative agreements".
	Hedging Strategy (please explain how you address interest rate and currency risk)	
HG.1.12	Non-performing loans	A loan where interest, repayments or overdrafts have been due for payment for more than 60 days
HG.1.13	NPV assumptions (when stated)
